1. **Alan Plummer Associates** Contact: Alan H. Plummer Jr. Alan Plummer Associates is a leading provider of environmental engineering services in the Upper Trinity region.

2. **American Water Works Association, Texas Section** Contact: Katie McCain. AWWA is a statewide industry group that represents water companies, engineering firms, and public agencies involved with the water industry. It also has a strong commitment to watershed and water resource education.

3. **City of Dallas** Contact: Rebecca Dugger, Fran Verhalin, and Carole Davis. The City of Dallas is one of the major cities on the Trinity River. The City is dependent on the Trinity for fresh water and is the site of significant redevelopment along the River.

4. **City of Fort Worth** Contact: Mary Gugliuzza. Fort Worth, another major city on the Trinity River supporting the initiative, is also dependent on the Trinity and its reservoirs for fresh water resources.

5. **City of Irving** Contact: Karen Siddall. Irving is still another city on the Trinity River supporting the initiative.

6. **Dallas Fort Worth International Airport** Contact: Dan Bergman. The DFW International Airport, as the region’s premiere transportation hub, is committed to balancing nature with global technology through state-of-the-art environmental management practices.

7. **Fort Worth Convention and Visitors Bureau** Contact: Doug Harman. The Fort Worth CVB will provide support and assist with the development of content related to recreation and tourism resources within the watershed.

8. **Freese and Nichols, Inc.** Contact: Ron Lemons. Freese and Nichols has been a leader in providing engineering services to the Texas water industry.

9. **Harris-Galveston Subsidence District** Contact: Carol Baker. The Harris-Galveston Subsidence District manages the withdrawal of groundwater in order to prevent land subsidence in its service area along the Texas coast. Integral to the group’s mission is the teaching and implementation of water conservation practices.

10. **The North Central Texas Council of Governments** Contact: John Promise. The North Central Texas Council of Governments (NCTCOG) serves a 16-county region of North Central Texas centered on the urban centers of Dallas and Fort Worth and including over 230 member governments. Through its standing committees NCTCOG...
has an extensive network of public and private stakeholders that help coordinate and implement various regional environmental programs, including several that address the Trinity River watershed; Trinity River COMMON Vision Program, Regional Storm Water Education & Outreach Program and Safe Clean Green Regional Environmental Corridors Program.

11. **North Texas Municipal Water District (NTMWD)** Contact: Denise Hickey. The NTMWD is a conservation and reclamation district of the state of Texas. Its mission is to provide safe drinking water, solid waste disposal and wastewater treatment in its service area as well to serve as a regional water wholesaler.

12. **Region 6 EPA** Contact: Karen Bick. The Water Quality Protection Division of EPA Region 6 focuses its resources on protecting and preserving the aquatic ecosystems and water resources of Arkansas, Louisiana, New Mexico, Oklahoma, and Texas, as well as the Tribal lands located within our region. Our vision is to provide leadership and assistance to support protection and restoration efforts so that all waters in Region 6 meet all designated uses, and all citizens have access to safe drinking water.

13. **River Legacy Foundation** Contact: Richard Browning (board member). River Legacy has an interpretive center along the banks of the Trinity in Arlington and provides educational programs to regional schools.

14. **Trinity River Authority (TRA)** Contact: Richard Browning. The TRA is a political subdivision of Texas. It is responsible for maintaining a basin-wide master plan, serving as a local sponsor for federal water projects, and providing water services within the Trinity River Basin. Services include water and wastewater treatment, recreation, reservoir facilities, as well as air and water pollution control facilities for industry.

15. **University of North Texas** Contact: Ken Dickson. The University of North Texas runs the Elm Fork Education Center, which is the public education branch of the University of North Texas’s environmental programs. The Center develops and implements premier environmental education programs.

16. **Tarrant Regional Water District** Contact: Linda Christie. TRWD is a major water supplier in the Fort Worth area and is engaged in public education regarding the use and reuse of water resources throughout the agency’s service area.

17. **Water Education Association of Texas (WEAT)** Contact: Paul Roach. WEAT, a regional member organization of the Water Environment Federation, will assist with fundraising and distribution of the program through member organizations and events.
